

## Siena

### PRODUCT DESCRIPTION

The Siena is a floor-standing system with a strong personality that perfectly illustrates RF's innate ability to match elegance and performance. Its unmistakable lines are completed by one of the most sophisticated cabinets ever produced by Rosso, which allow the Siena to deliver excellent sound with optimal integration into any living room.

The aluminium cone woofers and paper cone midranges are held in place by means of a vibration-damping system that minimizes transmission of vibrational energy to the baffle.

This feature allows an efficient control of structure-borne vibration, resulting in authoritative, sharp, and controlled low frequencies.

Furthermore, the top unit enclosure is decoupled from the lower woofer's enclosure by high-tech viscoelastic discs, helping the midrange and tweeter reach the absolute optimum in sound clarity and naturalness.

## PRODUCT SPECIFICATIONS

<b>Brand Name</b>	Rosso Fiorentino
<b>Type</b>	3-way close box floor stander
<b>Sensitivity</b>	87 dBspl (2.83V, 1m)
<b>Nominal impedance</b>	6Ω (minimum 4.4Ω)
<b>Frequency response (±3dB)</b>	35 Hz – 100 kHz (typical in-room bass resp. -6dB @30Hz)
<b>Crossover frequencies</b>	200 Hz – 2.2 kHz – 30kHz
<b>Recommended amplifier power</b>	100W – 300W into 8Ω with unclipped sound signal
<b>Height</b>	1204mm (47.4 in)
<b>Width</b>	413mm (16.2 in)
<b>Depth</b>	466mm (18.3in)
<b>Net weight</b>	68 Kg (150 lb) each
<b>Cabinet</b>	Multi-layer composite construction comprised of aluminium panels, solid HDF fibreboard and rubber damping elements  3 different internal absorbent material
<b>Cabinet finish</b>	Top module, front woofer panel and plinth: leather covering  Woofer module: high-gloss automotive paint finish   leather covering

## DRIVE UNITS

1 x ribbon diaphragm ultrasonic generator
1 x ø 28mm (1.1 in) silk dome neodymium tweeter
1 x ø 165mm (6.5 in) paper diaphragm woofer
2 x ø 200mm (8in) aluminium cone design woofer
