

Volterra

PRODUCT DESCRIPTION

A floor standing loudspeaker design which embodies the heritage of the Rosso Fiorentino brand and its own, now classic and unmistakable style. Aesthetically, the Volterra series 2 retains most of its original shape and proportions appearing similar to its predecessor.

However, it is actually entirely redesigned featuring all the elements of our most recent engineering developments.

Volterra sports a modular enclosure design and was amongst the first Rosso speakers to implement the concept of using mechanically different materials in one composite structure where each material absorbs and damps the resonant frequency of another material in the system.

The result of this 'team work' is a cabinet incredibly still and firm where panel vibration modes are drastically reduced revealing great micro and macro dynamic details in the sound.

PRODUCT SPECIFICATIONS

Brand	Rosso Fiorentino
Type	2.5-way rear-ported/close box floorstanding system
Recommended amplifier power	70w – 200w into 8Ω with unclipped sound signal
Sensitivity	88 dBspl (2.83V, 1m)
Cabinet	Multi-layer composite construction comprised of aluminium panels, solid HDF fiberboard and rubber damping elements
Dimensions	Height: 1066mm (42 in) incl. plinth and spikes
Net weight	40 Kg (88.2 lb) each
Frequency response (±3dB)	38 Hz – 100 kHz (typical in-room bass resp. -6dB @35Hz)
Cabinet finish	Black matte coated aluminium front baffle Exclusive RF silky matte black coating Leather covering on middle lateral panels
Crossover frequencies	60 Hz – 2.2 kHz
Side panels	High gloss black Natural Italian walnut Custom leather covering

DRIVE UNITS

1 x ribbon diaphragm ultrasonic generator
1 x ø 28mm (1.1 in) silk dome neodymium tweeter
1 x ø 165mm (6.5 in) Nomex diaphragm woofer
1 x ø 200mm (8 in) Nomex diaphragm woofer
